## INTRODUCTION

Highly motivated and detail-oriented entry-level web developer with a strong foundation in HTML, CSS, JavaScript, and responsive web design. Seeking to leverage skills and passion for web development to contribute to the success of a dynamic team at a forward-thinking company.

## SKILLS

- ❖ **HTML, CSS, JavaScript**
- ❖ **Front-end Development (React Js)**
- ❖ **Sketch Artist**

## EDUCATION

- ❖ **Bachelor of Science in Computer Science (BSCS)**  
(2021-25)
  - Government College University Faisalabad

## EXPERIENCE / PROJECTS

- ❖ **AMS (Attendance Management System) | HTML, CSS, JavaScript, php**  
Developed an Attendance Management System (AMS) with student, teacher, and admin panels. Teachers mark attendance, while the admin controls user access and monitors system-wide activity.
  - Role-based panels for Admin, Teacher, and Student.
  - Real-time attendance marking and reporting.
- ❖ **API Calling / Form Handling | React JS**  
Created a React website with separate contact and login forms, integrating external API calls for dynamic data. Designed for clean UI and smooth user experience.
  - Contact and login forms developed independently with form validation.
  - API calls handled separately for modular integration and flexibility.

## CERTIFICATES

- ❖ **MERN Stack Development | NEXSKILL - ARFA TOWER | Lahore, Punjab PK**  
(Sep '24 – Feb '25)  
Learned an intensive MERN Stack Development course at NexSkill, gained hands-on experience building dynamic website and mastering in front-end development.
